Accountability

As of November 30, 2021, WVI has received 1,132 feedback from the community consisting of 70.3% thanks, 25.7% suggestions, and 5% complaints. As much as 2% of feedback is still in the process of being followed up in the field.

By region, most feedback was received from Tanjung (30%), Kayangan (20%), Sembalun (45%), and Sambelia (5%). The suggestion box (50%) is the channel most used to convey feedback, then during the monitoring & evaluation process (25%), face-to-face with staff (15%), contact numbers or call centers (7%) and information desks or helpdesk (3%). During the pandemic, most of the feedback is received through the monitoring & evaluation process carried out by telephone (WA) and call center. Through community feedback, WVI can improve the quality of the program and know the community's needs and can truly answer the community's needs.
